# Good Guys Home Service

From request to resolution: the impact of on-demand home service technology on user satisfaction

## Overview

Good Guys is an on-demand home service app connecting users with skilled technicians for various home services, ensuring convenience and real-time scheduling.

## Features At a Glance

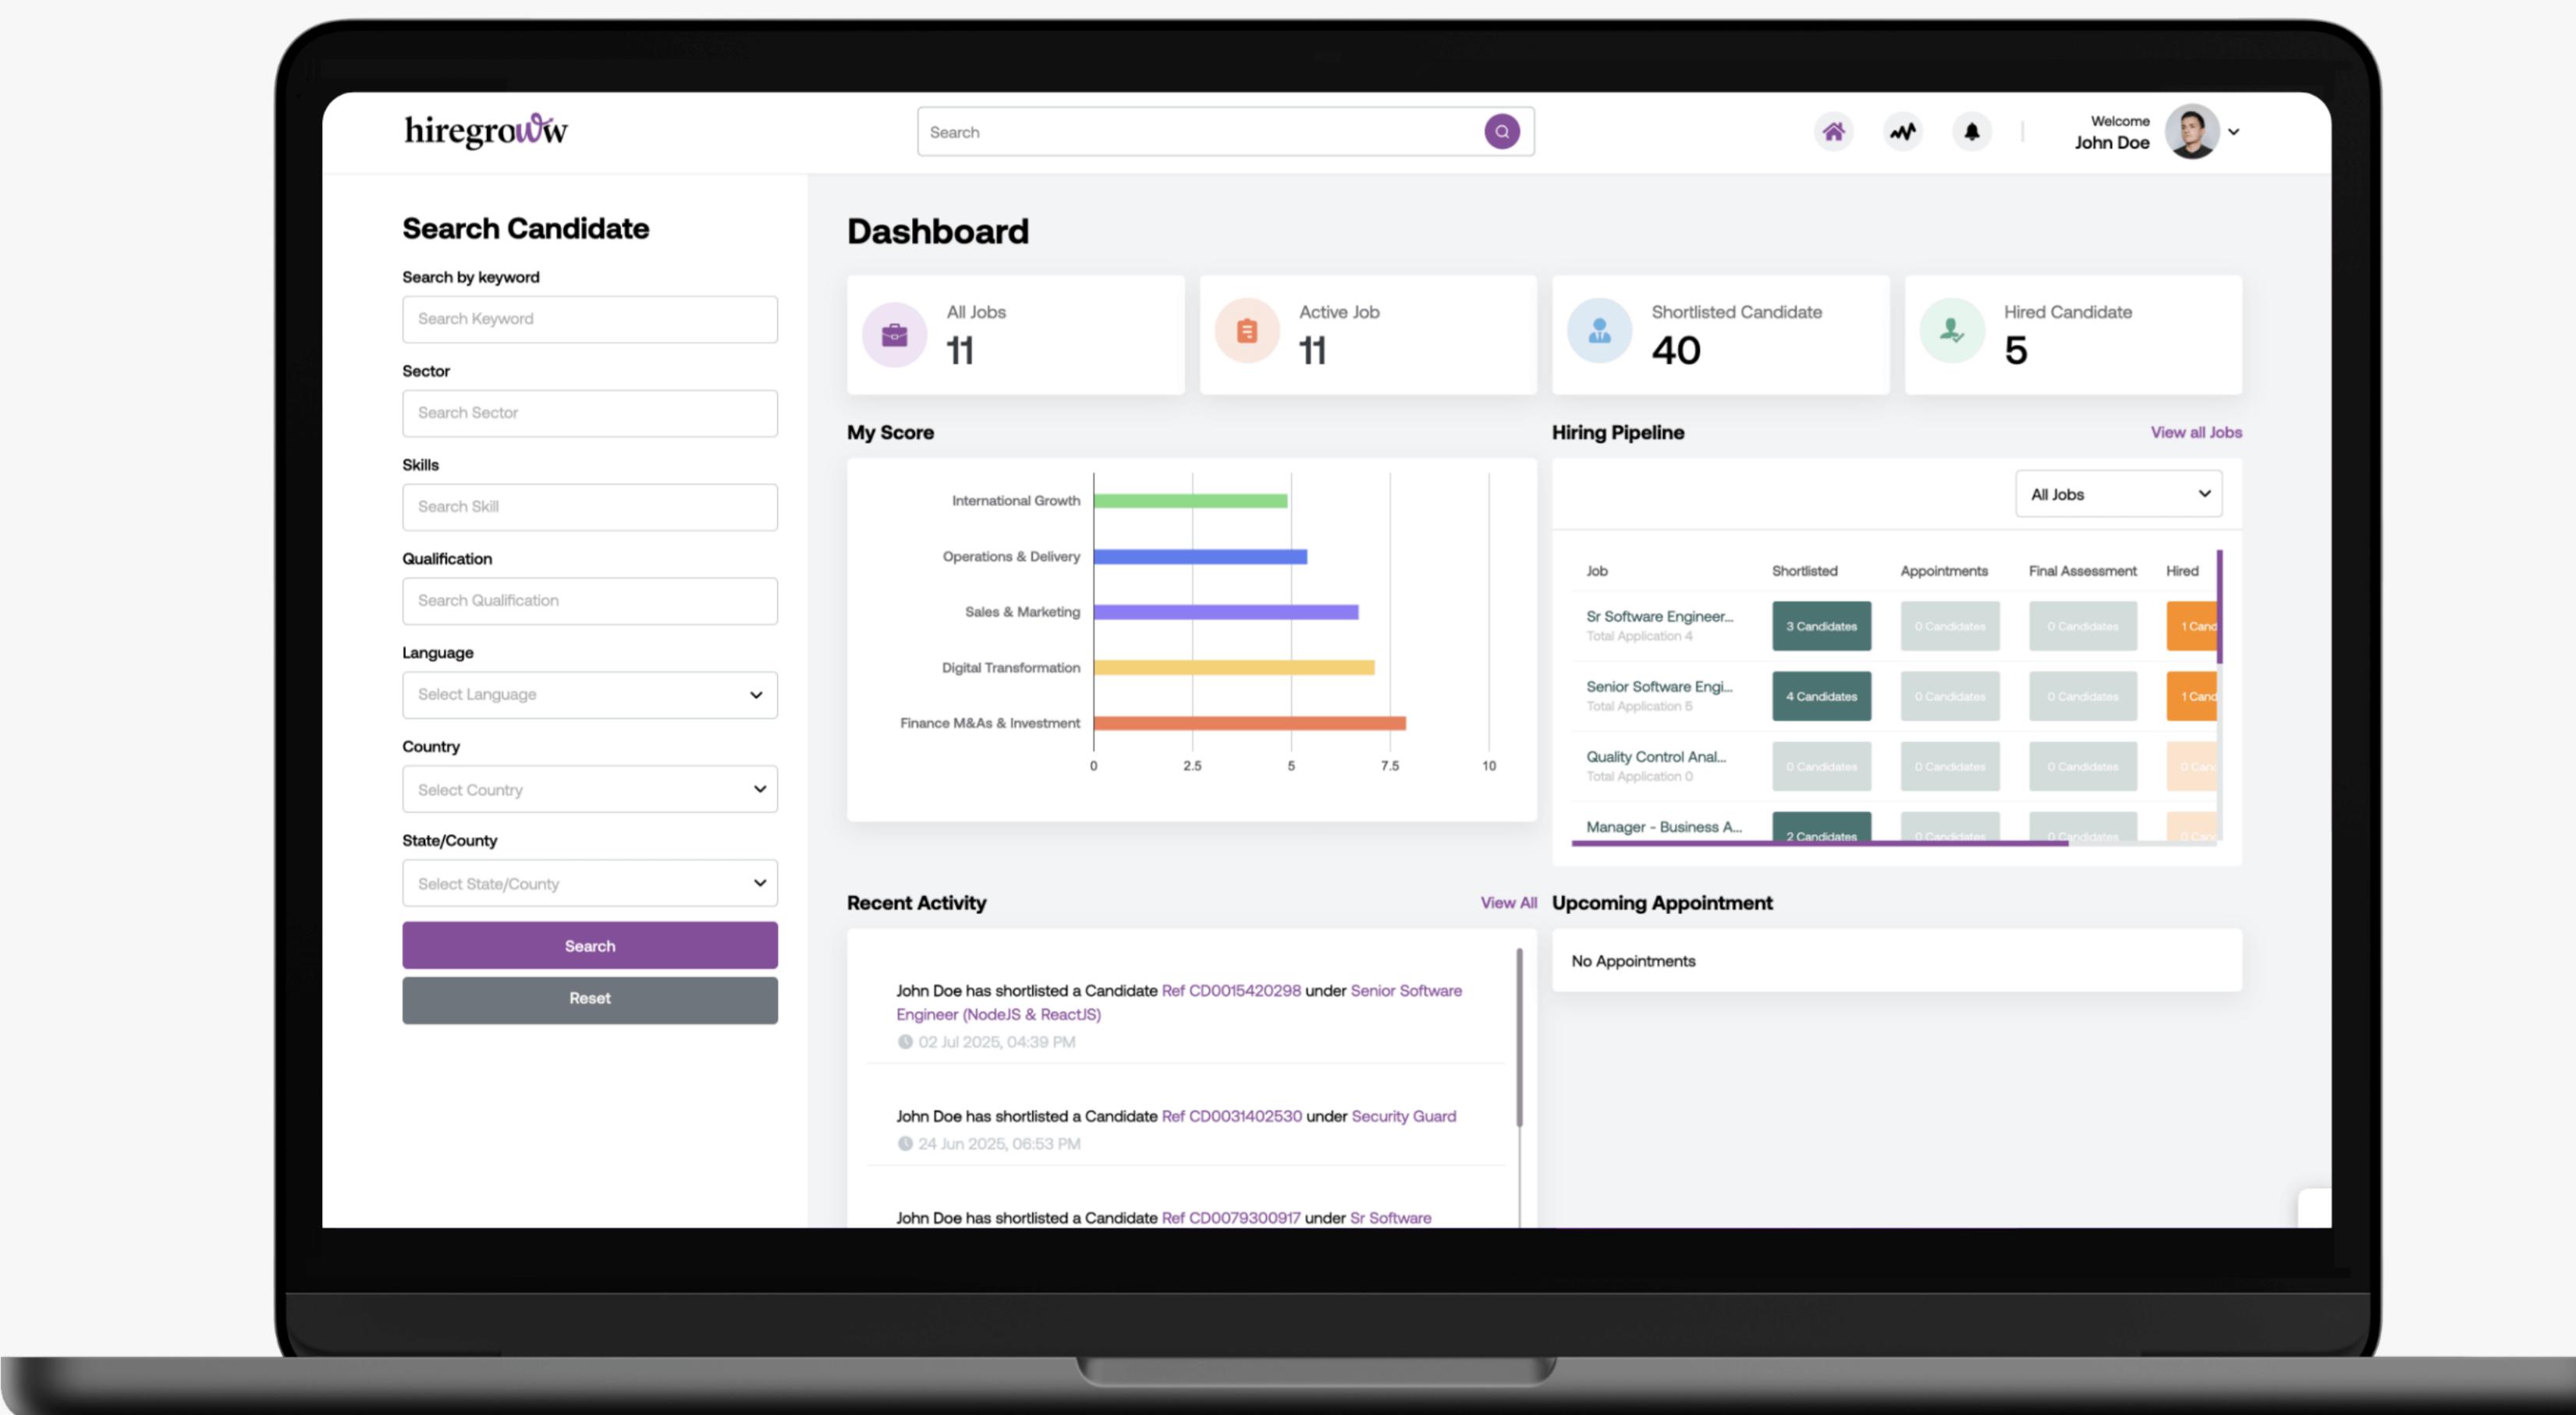

- Easy Booking and Scheduling
- Geo-location Tagging for Nearby Services
- Real-time Service Tracking
- Multiple Payment Options
- Ratings and Reviews for Service Providers

## Project Impact

Good Guys Home Services improved user convenience and satisfaction with efficient scheduling, real-time tracking, and flexible payment options, becoming a leading choice for home services.

# HireGroww

Smarter hiring at scale: how hiregroww is redefining tech-led recruitment

## Overview

HireGroww is an AI-powered skill-based hiring platform designed for recruiters and HR teams to screen, assess, and hire faster. It enables automated workflows, bias-free evaluations, and real-time analytics.

## Key Features at a Glance

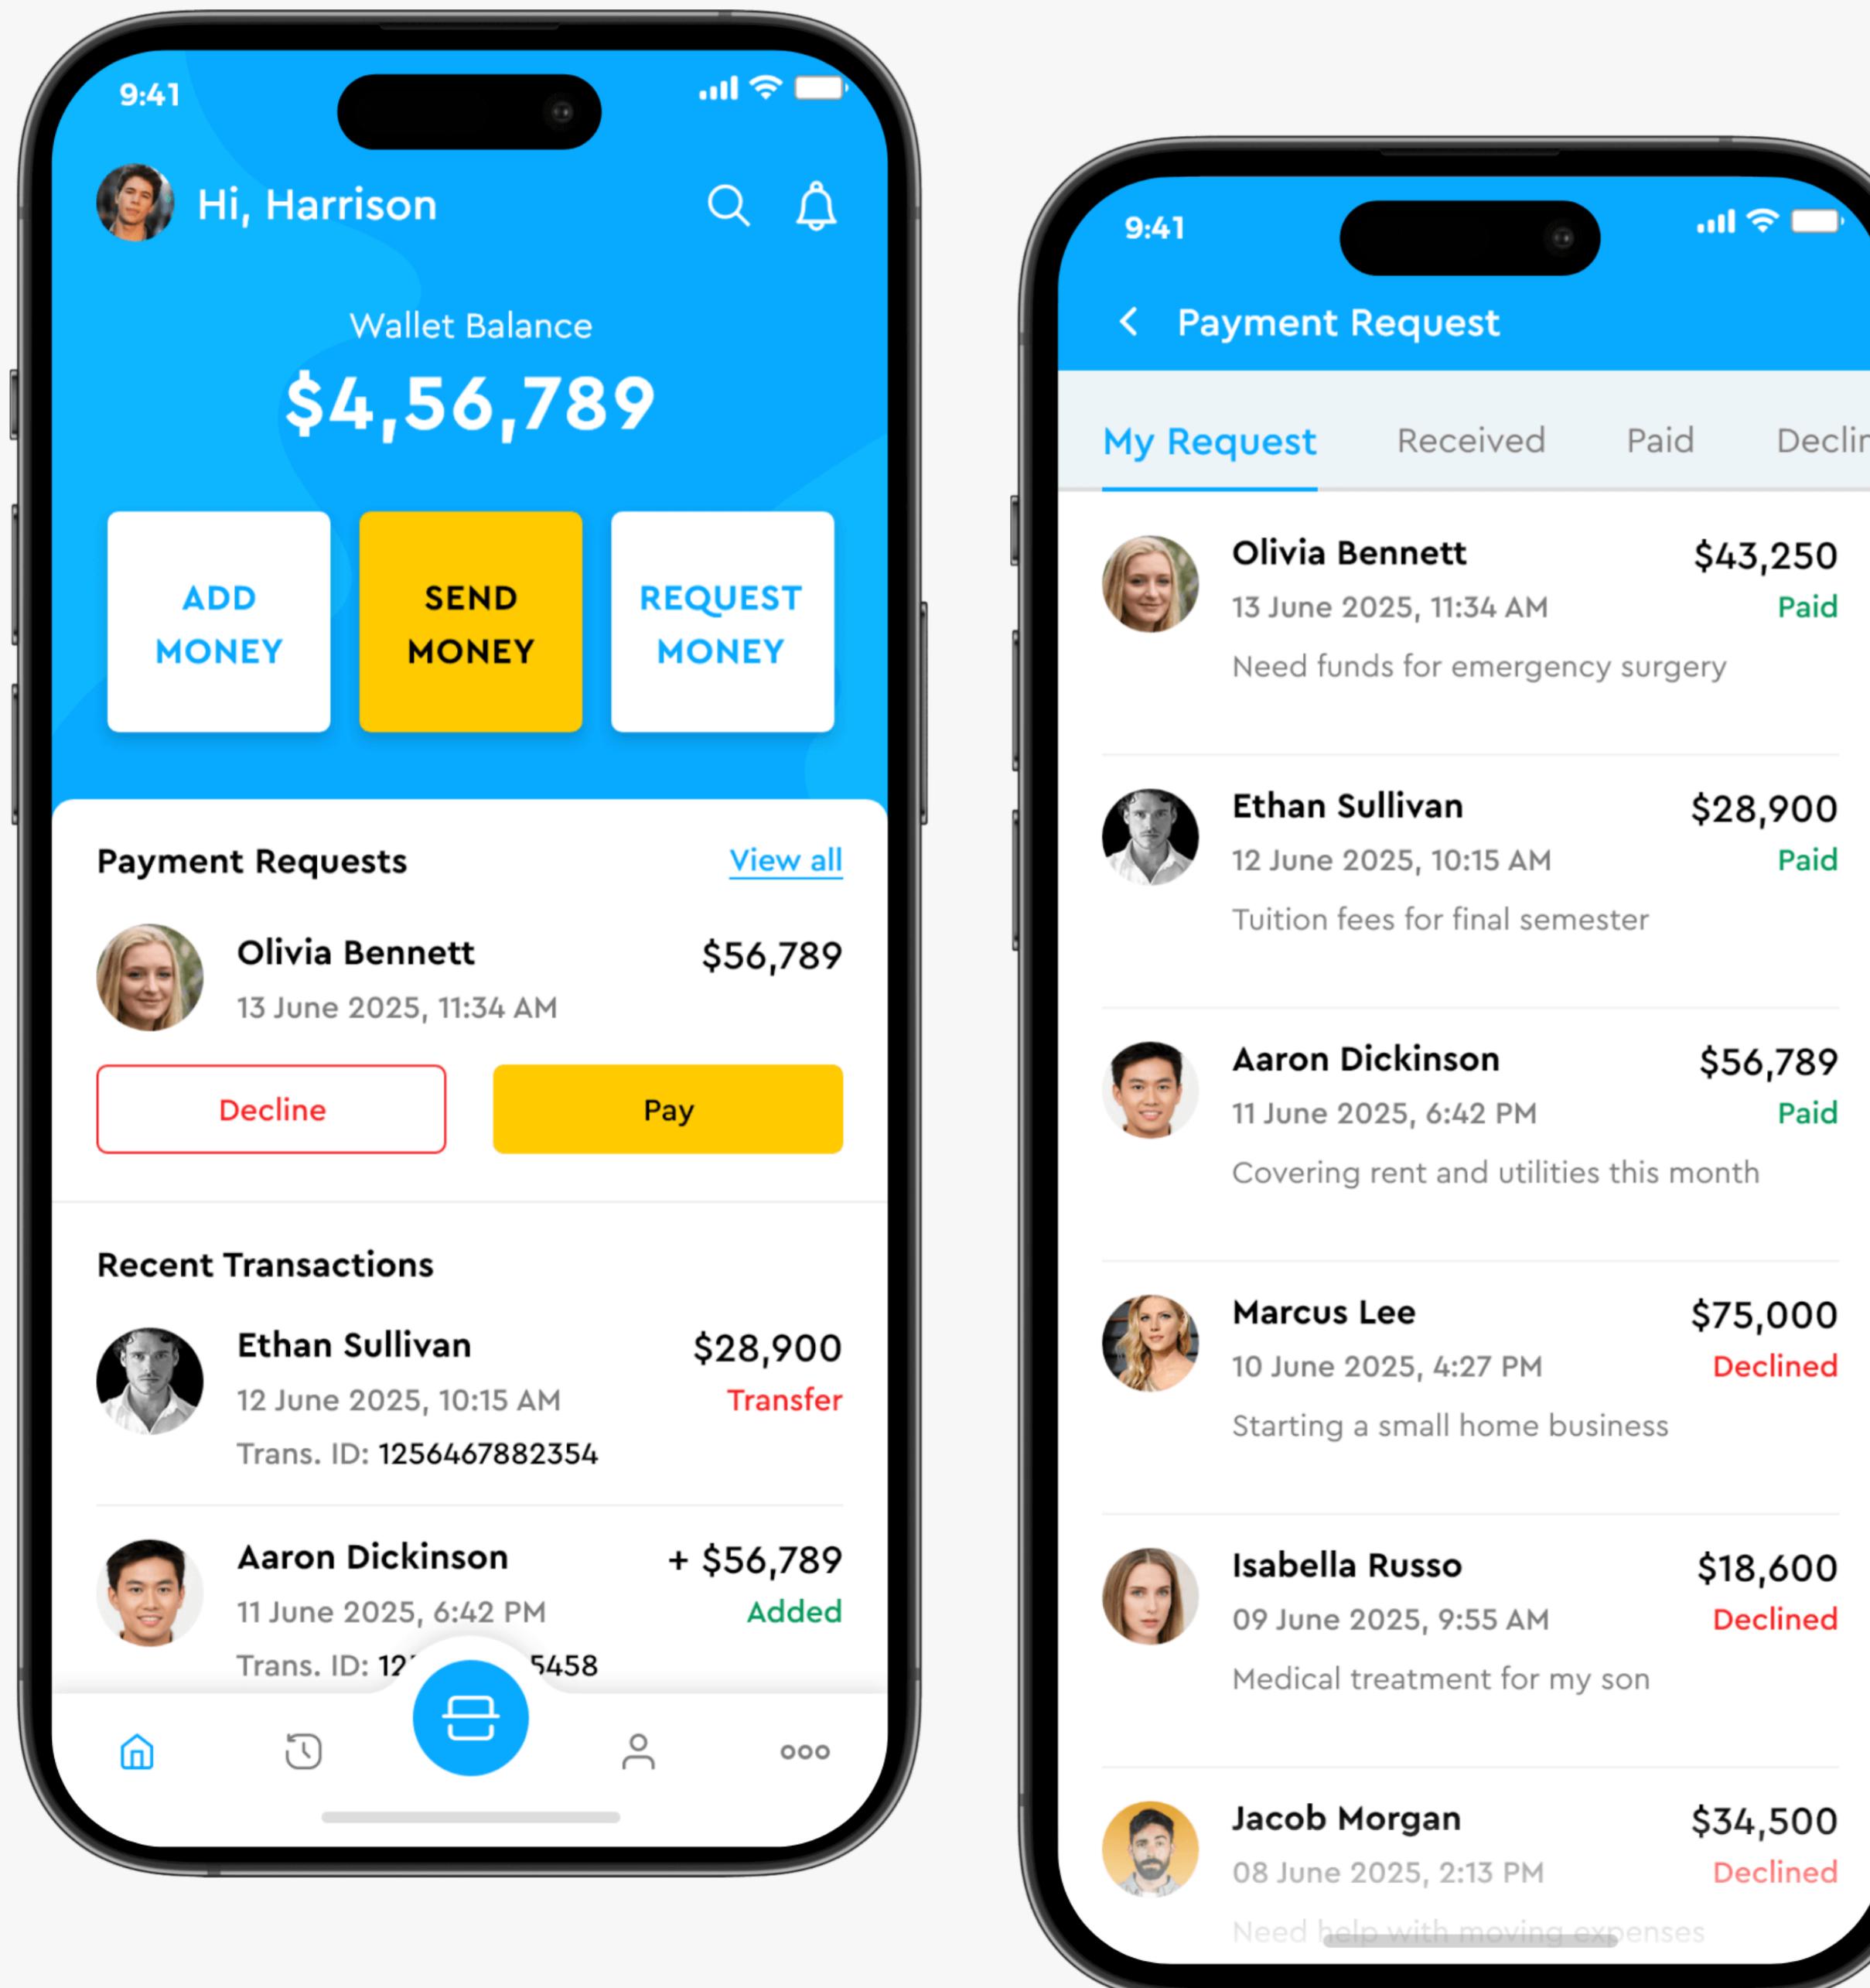

- AI-Powered Resume Parsing
- Auto-Shortlisting & Smart Ranking
- Video Interviews with AI Scoring
- Real-Time Hiring Dashboard
- Bias-Free Assessments

## Project Impact

HireGroww cut hiring time by 60%, improved recruiter productivity, and delivered high-quality, bias-free candidate evaluations with automated assessments and smart dashboards.

# Monay

Cashless transactions redefined – the impact of an innovative digital wallet on modern payments

## Overview

Monay is a versatile digital wallet designed for peer-to-peer transfers and retail payments, enabling instant cashless transactions and seamless integration with various businesses.

## Features At a Glance

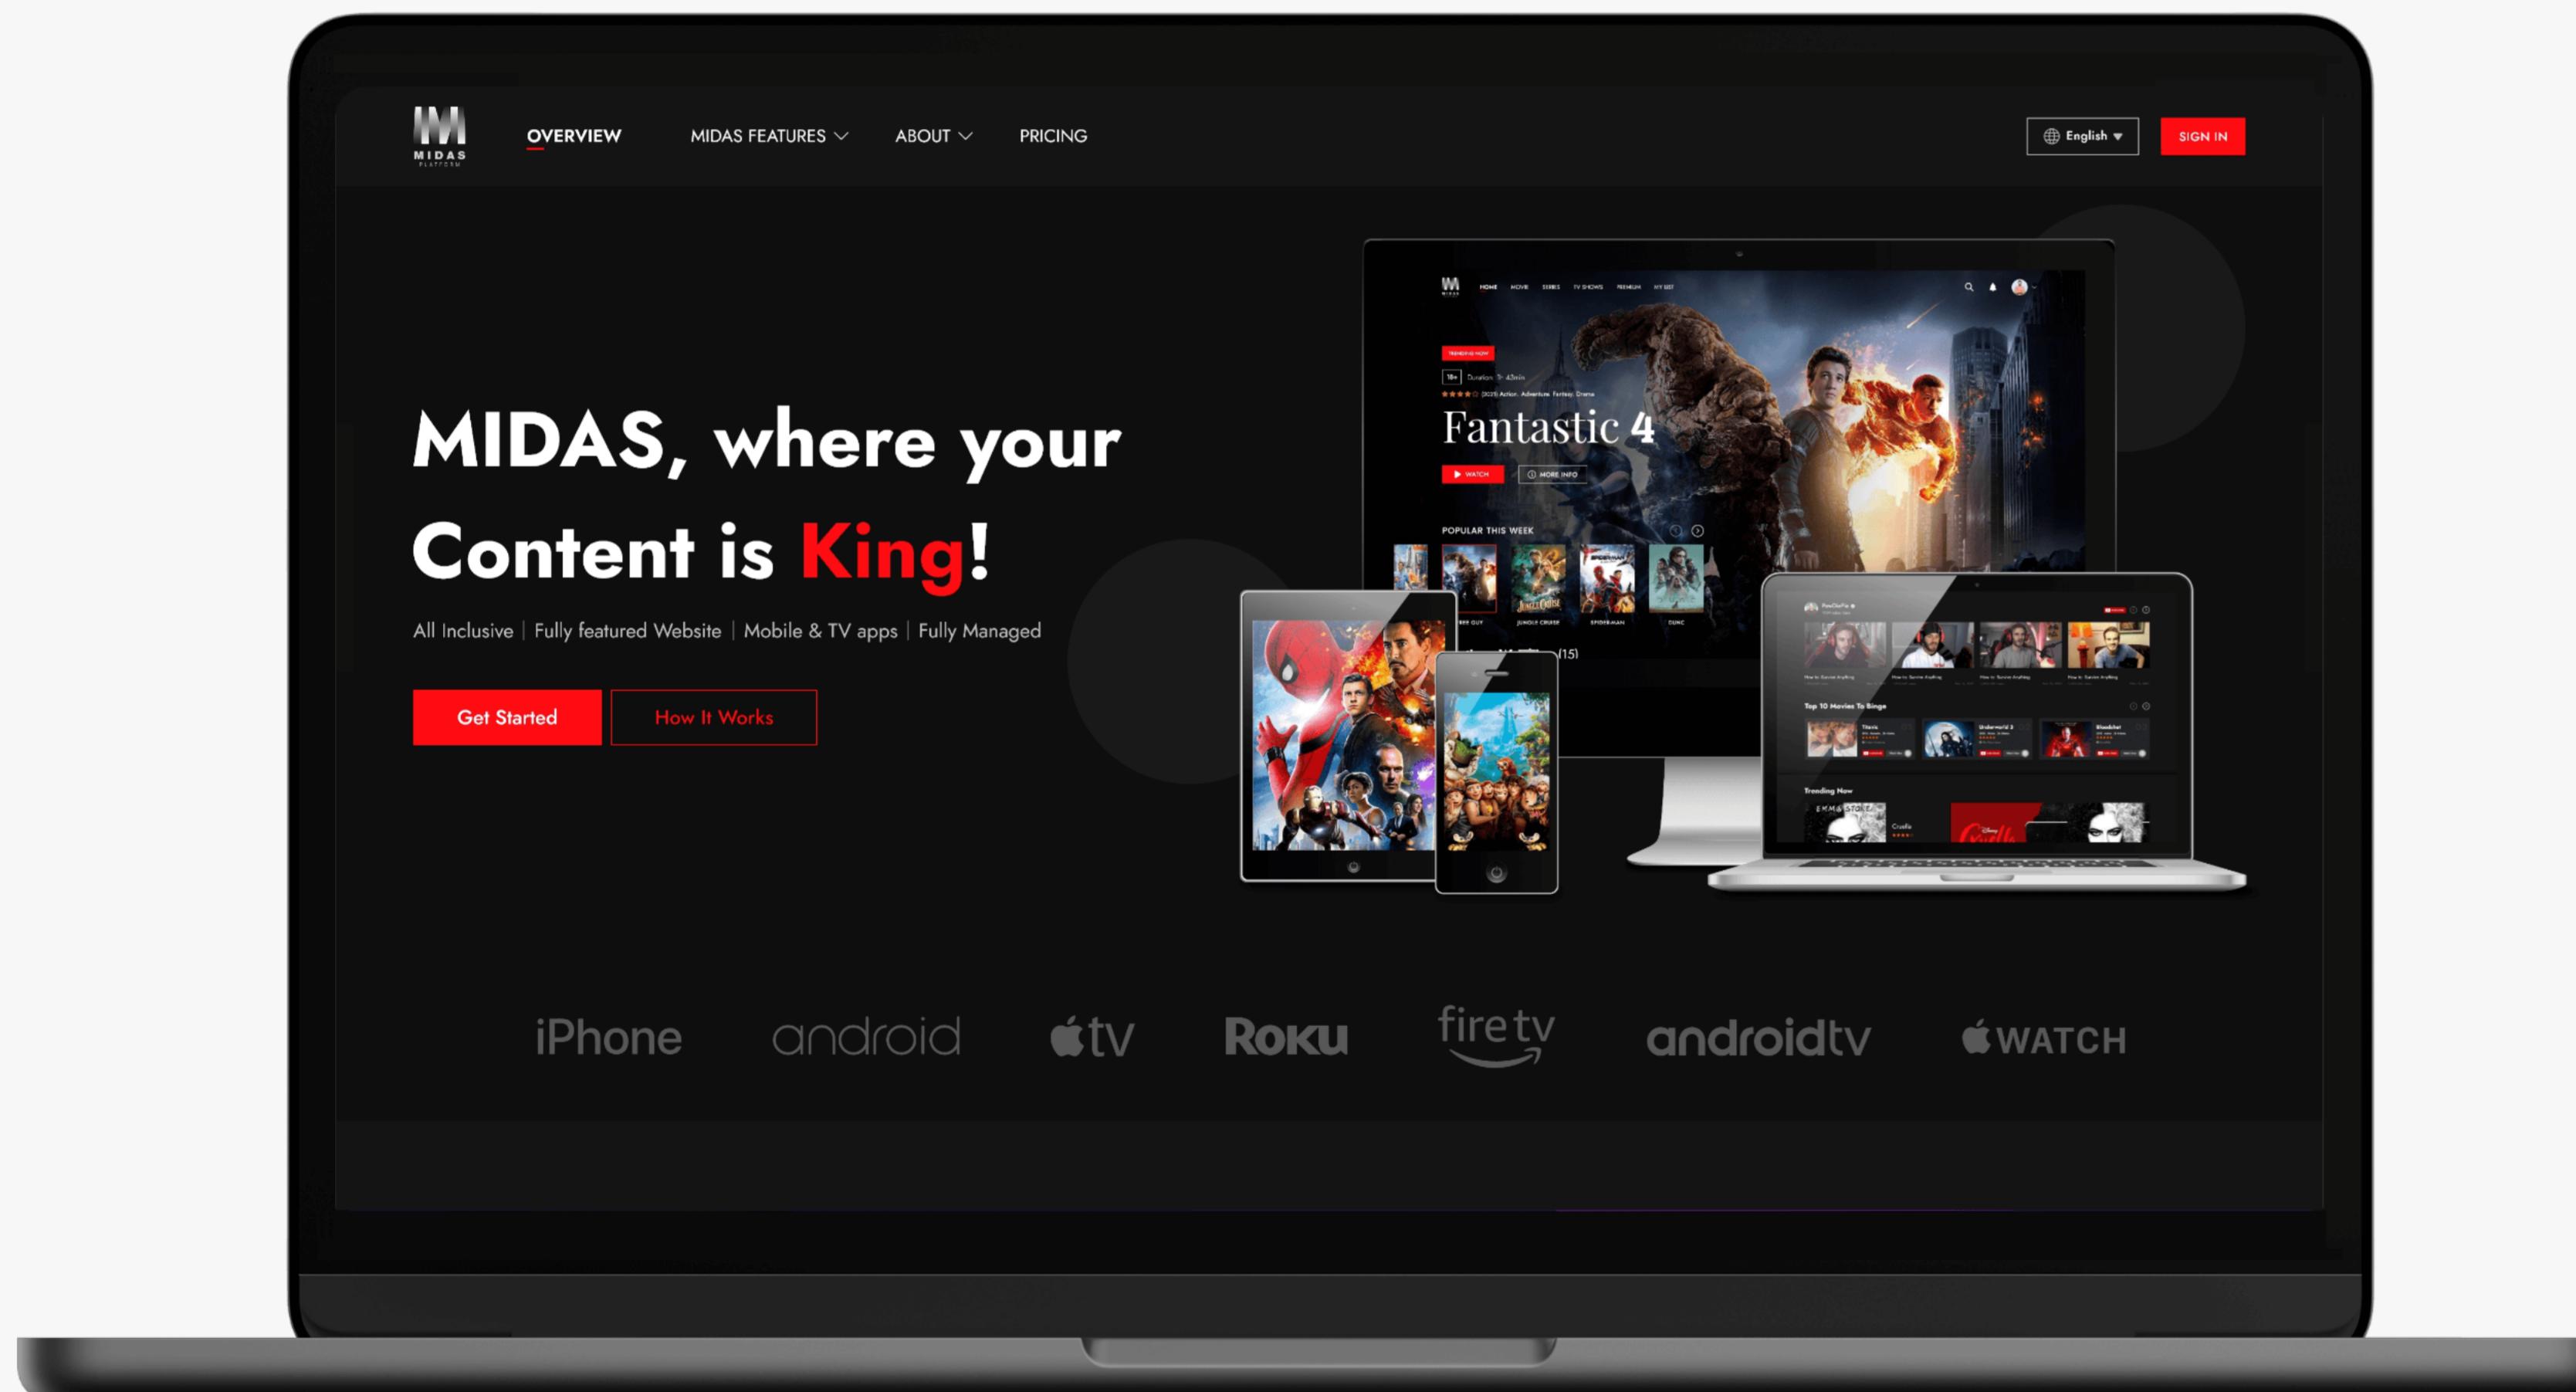

- Easy Registration and Login
- Money Transfer and Bill Payment
- Link Bank Account and Add Balance
- QR Code Payments for Merchants
- Transaction History and Security Management

## Project Impact

Monay reshaped digital transactions, delivering a seamless and secure payment experience that significantly improved user and merchant interactions.

# MIDAS

From creation to consumption: an OTT platform reached 1 million monthly hours with advanced solutions

## Overview

Midas is a cutting-edge OTT platform that allows content creators to upload movies, web series, and daily soaps, while subscribers can stream or download content for immediate or later viewing.

## Features At a Glance

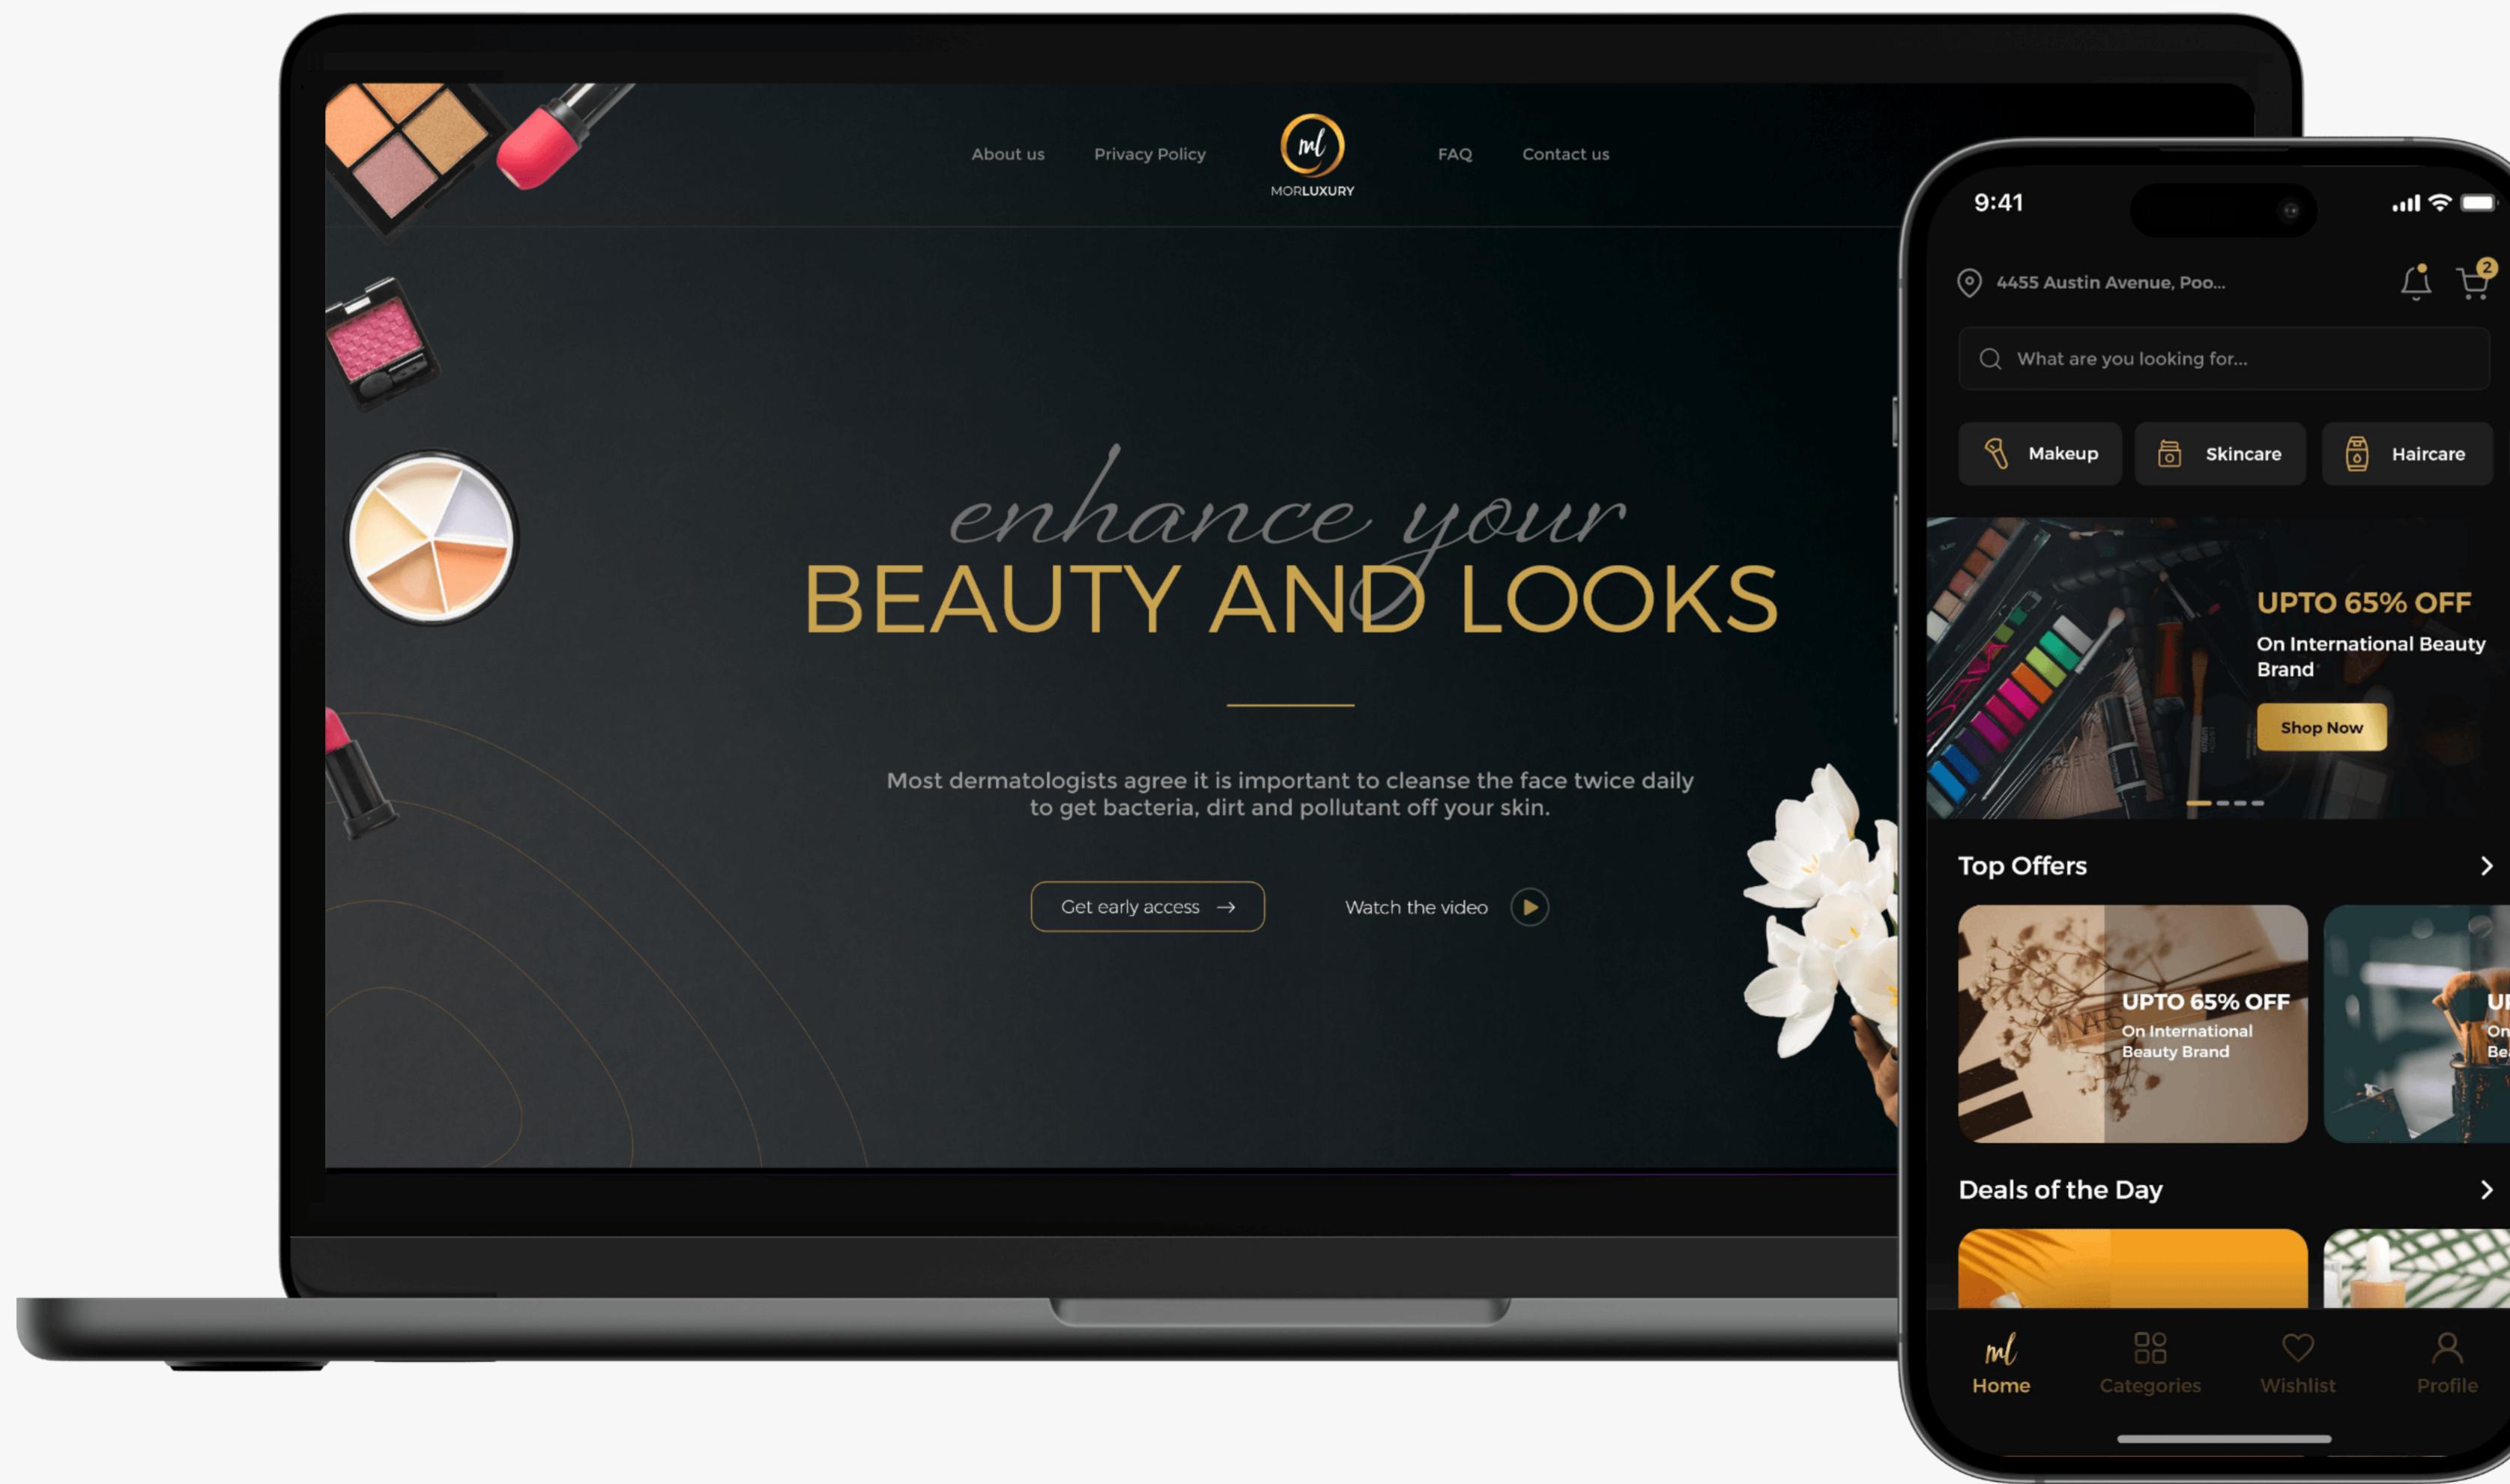

- Personalized Content Recommendations
- Secure Content Delivery with DRM
- Multi-Device Streaming and Downloading
- Efficient Content Management for Creators
- Subscription Management and Flexible Plans

## Project Impact

Midas increased user engagement, resulting in 1 million hours of content watched monthly, and added 10,000 new subscribers within six months.

# MorLuxury

From clicks to cart: a luxury e-commerce solution bridges American brands with Indian consumers

## Overview

MorLuxury is a sophisticated e-commerce platform that connects consumers with premium American skincare brands, offering an exclusive selection of high-quality, innovative beauty products.

## Features At a Glance

- High-End Product Showcase
- Personalized User Experience
- Secure Payment Gateway
- Responsive Design
- Advanced Search and Filtering

## Project Impact

By enhancing product visibility, personalizing experiences, and ensuring secure payments, MorLuxury significantly improved sales, customer loyalty, and user engagement.

# ESSKN

On-demand skincare redefined - how a home service platform transformed facial treatments and expert consultations

## Overview

ESSKN is an advanced platform that connects users with professional skincare services at home. It offers a seamless experience for booking on-demand facials, selecting personalized add-ons, and purchasing curated skincare products, all tailored to individual needs.

## Features At a Glance

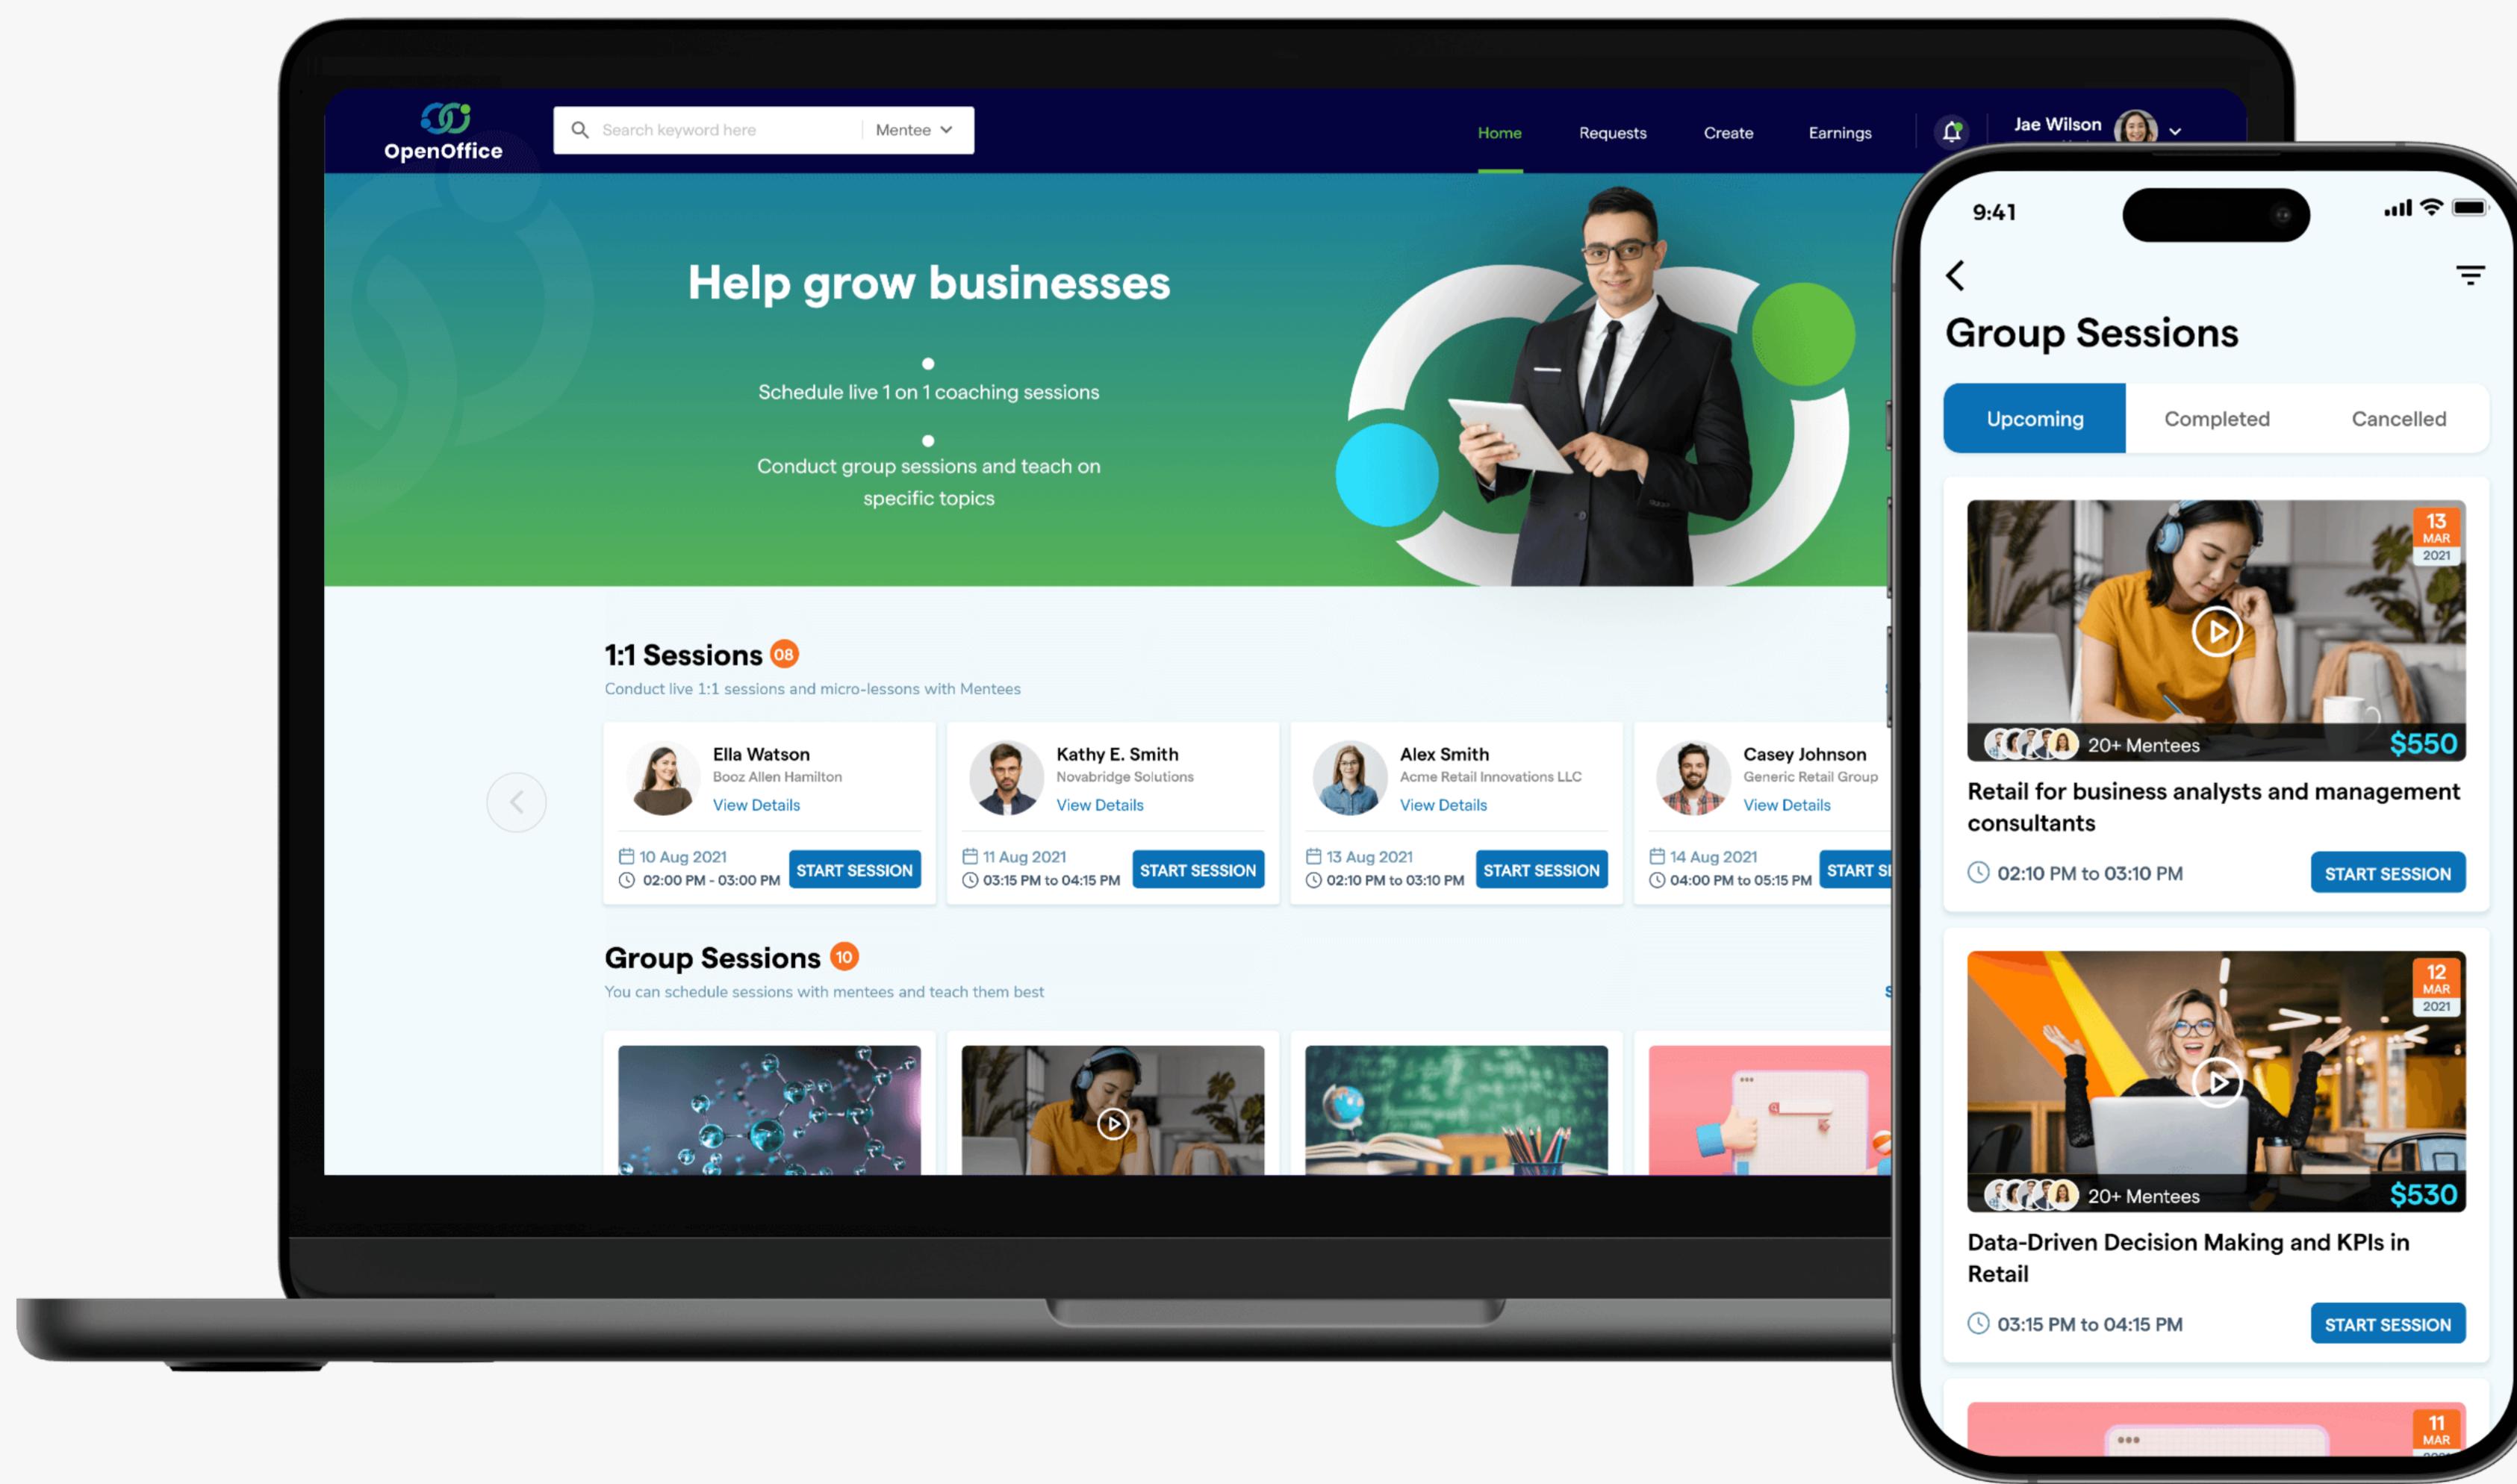

- On-Demand Facial Booking
- Personalized Treatment Options
- Curated Skincare Products
- Expert Consultation
- Efficient Booking and Management for Skinicians

## Project Impact

ESSKN transformed skincare by facilitating thousands of at-home treatments annually, streamlined Skinician workflows, and significantly improved user satisfaction with tailored skincare routines.

# OpenOffice

Connecting minds, accelerating growth - the impact of a live session platform on entrepreneurial learning

## Overview

OpenOffice is an e-learning online app that connects entrepreneurs and students with global industry leaders for one-on-one live sessions on various business topics.

## Features At a Glance

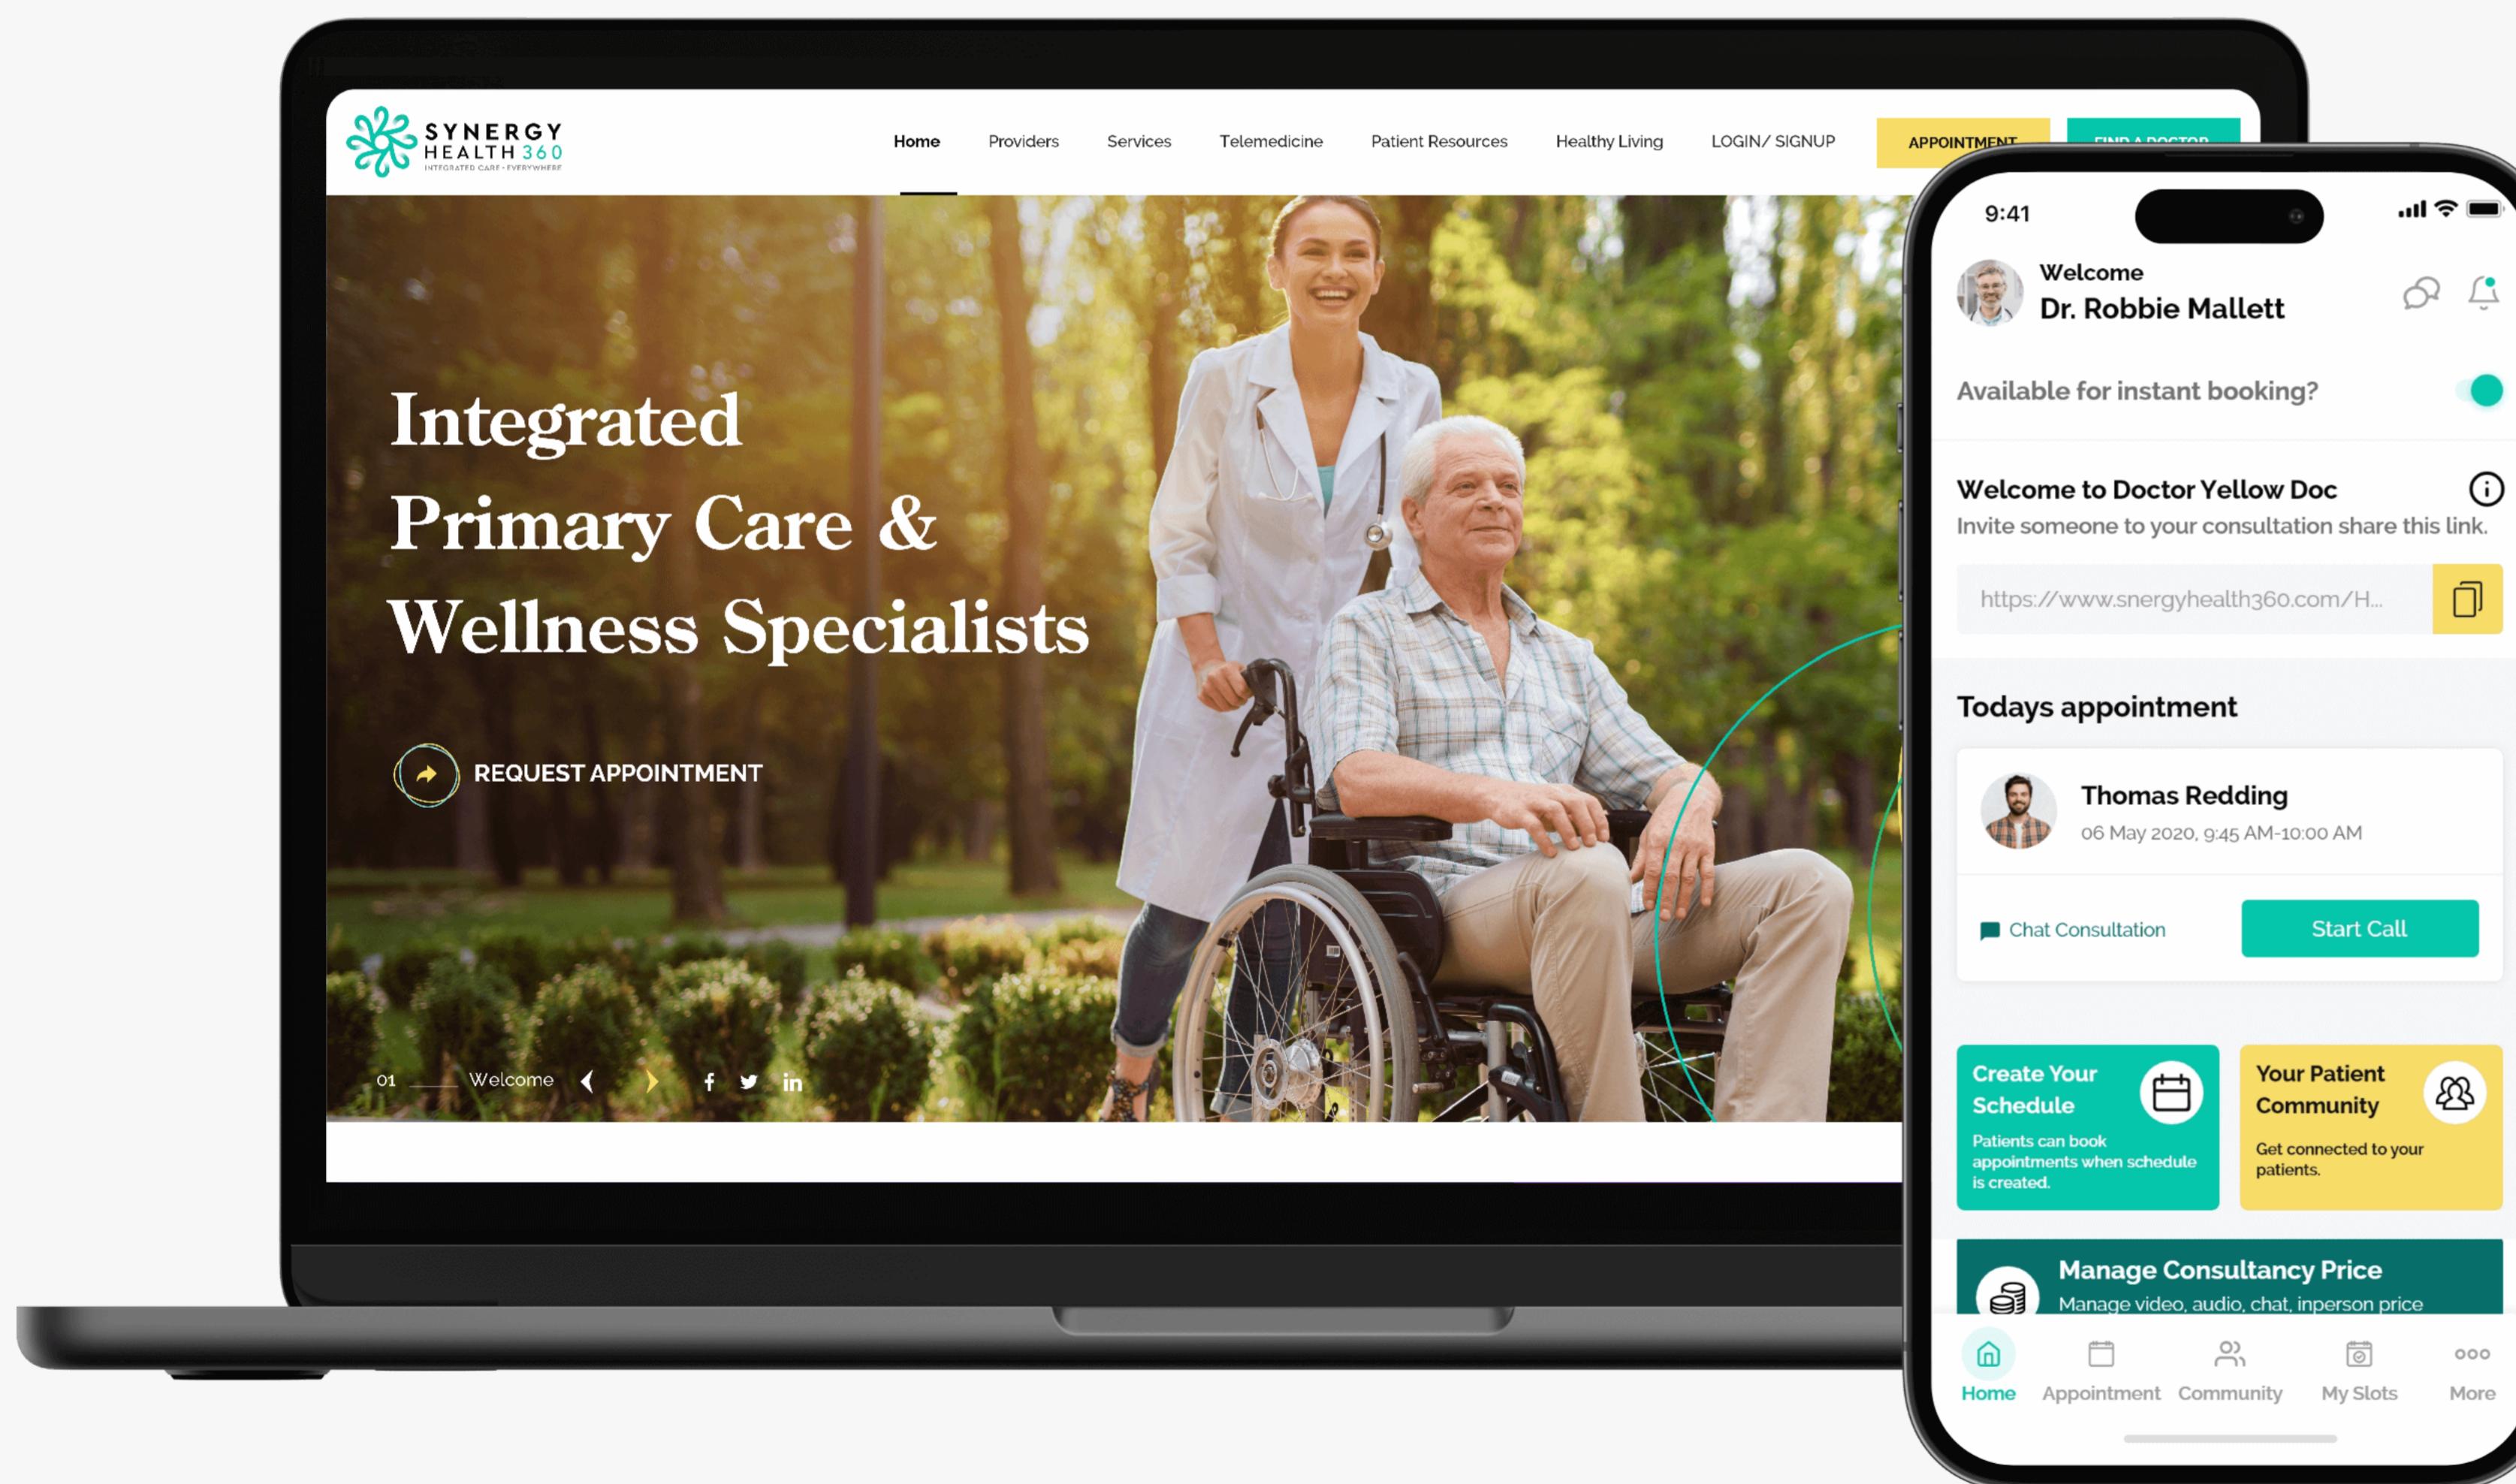

- Live Session Scheduling
- Mentor Directory
- Session Management
- Secure Online Payments
- Personalized Notifications

## Project Impact

Through live sessions and expert connections, OpenOffice improved the e-learning experience, facilitating significant business growth and personal development with actionable, real-time mentorship.

# Synergy Health 360

Optimizing health management - an integrated health platform delivered 10x boost in patient engagement

## Overview

Synergy Health 360 is an integrated primary care platform with advanced AI technologies for telemedicine, remote monitoring, and care management.

## Features At a Glance

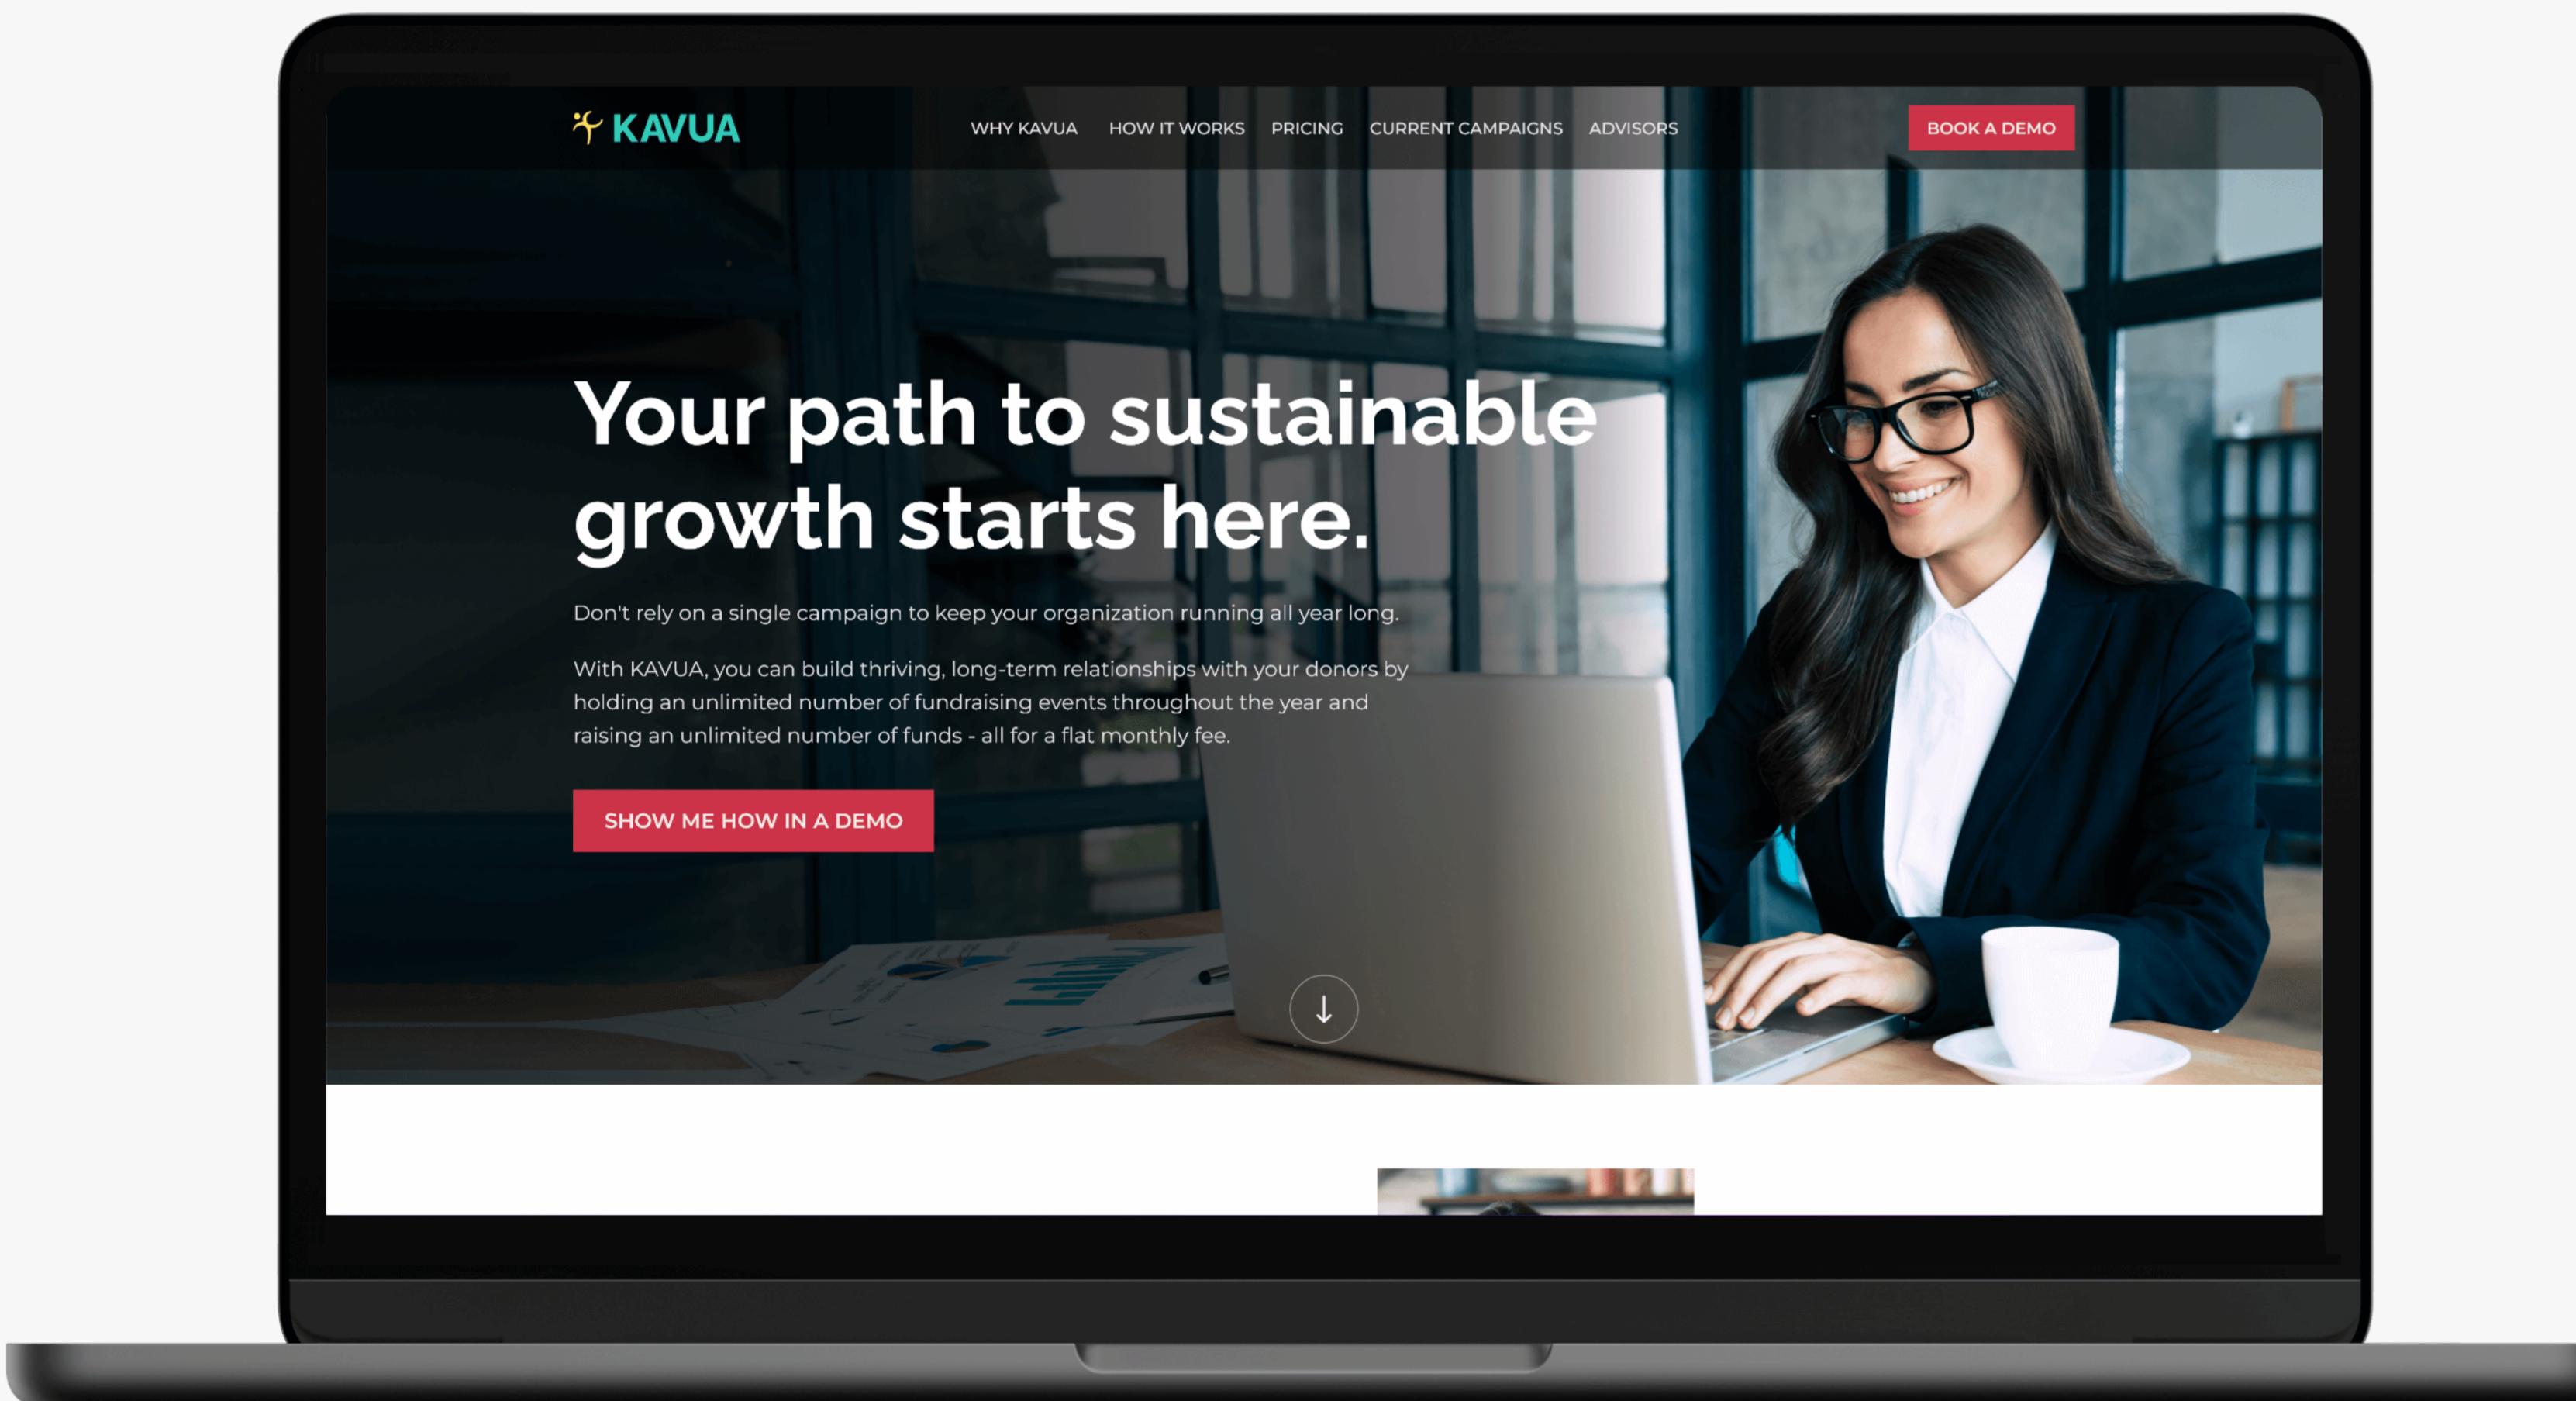

- Telemedicine Integration
- Remote Patient Monitoring
- Comprehensive Patient and Provider Apps
- Advanced Appointment Management
- Admin Dashboard for Operations

## Project Impact

With its advanced AI and comprehensive features, Synergy Health 360 improved patient care significantly, achieving a 10X boost in engagement and a 30% increase in retention.

# Kavua

Simplifying donor connections - an online platform transformed fundraising efforts with seamless campaign management

## Overview

Kavua is an online donation platform designed to simplify and enhance fundraising for non-profit organizations like NGOs and charitable trusts.

## Features At a Glance

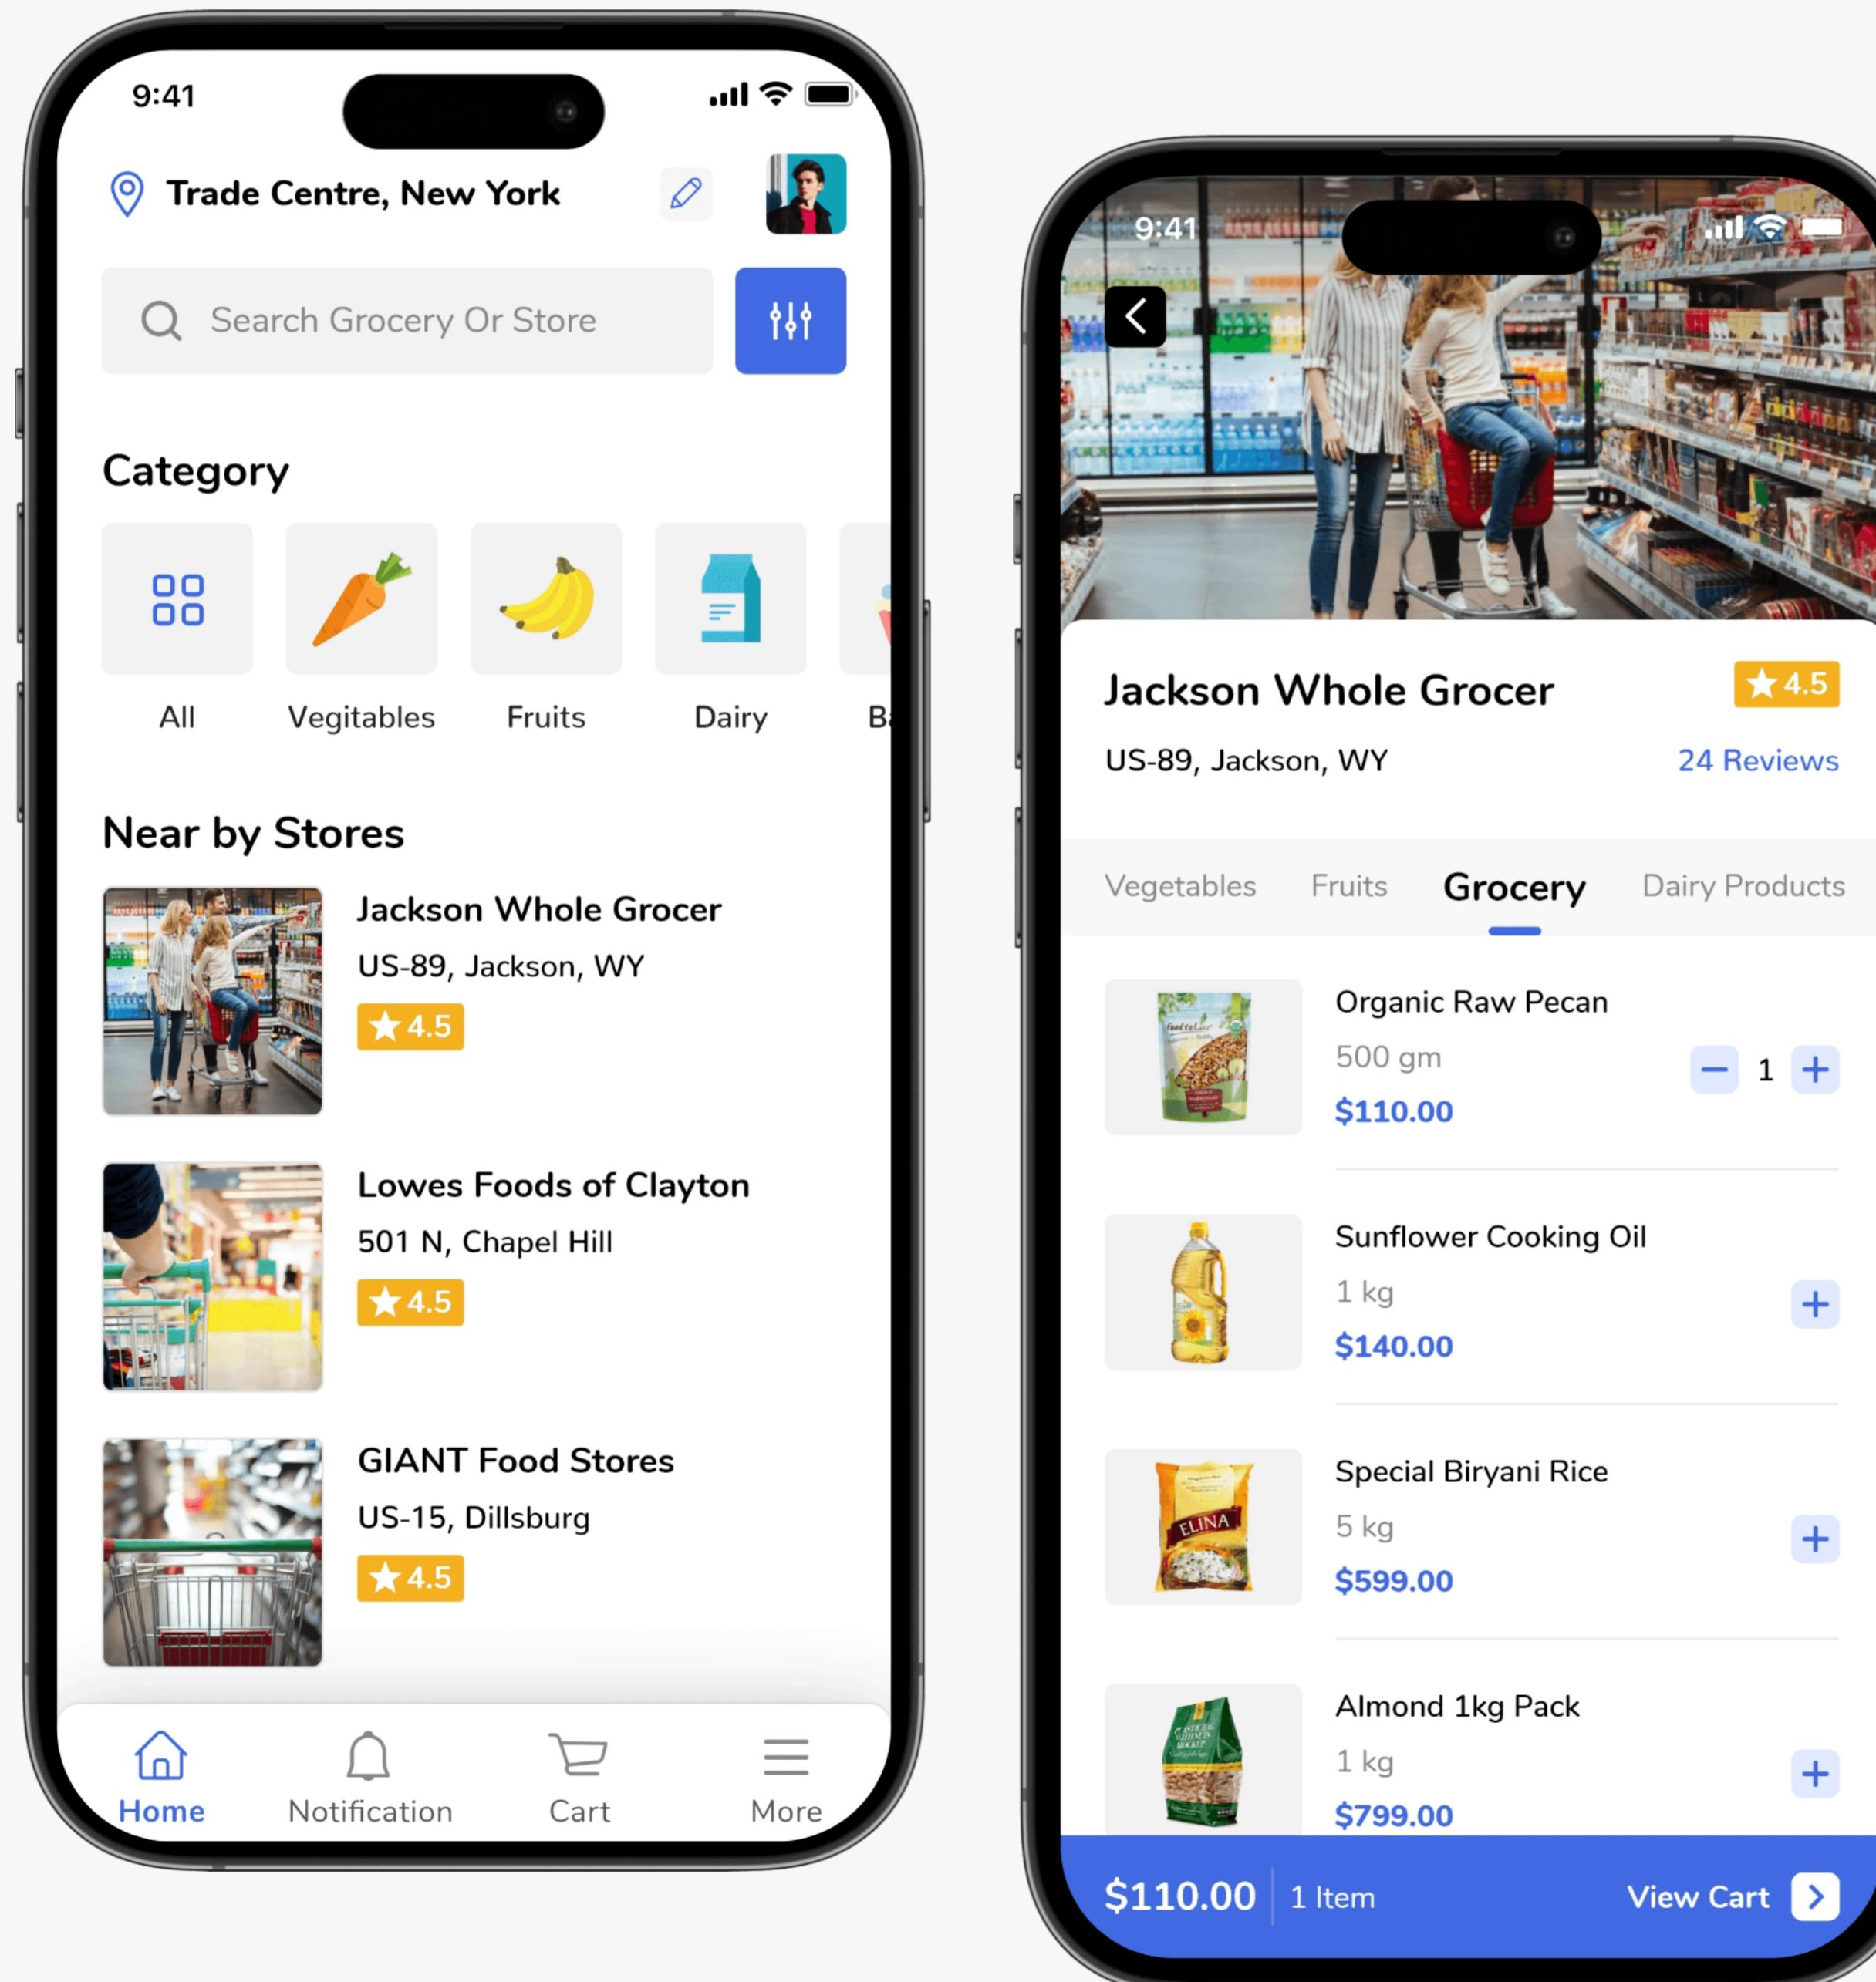

- Comprehensive Campaign Management
- Secure Payment Processing
- Real-Time Analytics
- Donor and Ambassador Management
- Customizable Campaign Options

## Project Impact

By centralizing campaign management and enhancing donor engagement, KAVUA transformed non-profit fundraising, leading to higher donation rates and improved operational effectiveness.

# Vinedress

Local grocery delivery revolutionized - how an e-commerce app empowered small retailers and streamlined customer experience

## Overview

Vinedress is an on-demand e-commerce grocery delivery app that connects local retailers with customers for seamless ordering and delivery.

## Features At a Glance

- Seamless Vendor Integration
- Real-Time Order Tracking
- Multiple Payment Options
- Instant Order Updates
- Efficient Delivery Management

## Project Impact

By enhancing order management and tracking, Vinedress increased local retailer visibility, leading to a 20% rise in orders and improved delivery efficiency.

# Global Presence
